Brooms (with dustpans and commercial push)
Dustpans (prefer long handled)
Commercial Mops
Paint & Supplies (ask for details)
Clear plastic storage containers assorted sizes

Want to help?

Along with small projects we have available, there are three classrooms that will need crews for cleaning, some painting, and SEP set up in each. These opportunities would be great for small group of folks. If you don't have a group but would like to be part of these opportunities, let us know and we will take names and put work groups together.

Spaces will have to be cleaned first, then painted, and finally finished with summer setup. Groups and individuals can volunteer for one or all three of the processes for each space depending on time and talents.

There is one special space that will need to be set up for the Summer Enrichment Camp. This will require a few groups to take on different parts of the project. If you have a group that may be interested please ask for details.

What to do next:

Gather your team and call us! We will work together for a date and time your team can begin! No team? Call us and leave your information: name, best contact, and what process you are interested in.
